

# Your roadmap to raising healthy country kids

Click here to find out about services available to you and your child.

Services	Immunisation	Growth	Development
	Following the WA Immunisation Schedule protects a child from infectious diseases.	Measuring weight and length to ensure baby is on track.	Movement, speech, hearing and vision are tracked against key milestones.

Your child may be eligible for additional services, check with your child health provider.

**Pregnancy**

"Mum's immunisations protect both of us."

**Birth**

"I'm here! Protect me by getting my birth immunisations."

**0-14 days**

"We get to meet our child health nurse!"

**4 month check**

"My immunisations are my shield. Make sure you book in on time. Let's check my development - am I babbling?"

**6-8 week check**

- ✓ Doctor visit for me and mum
- ✓ See my child health nurse
- ✓ Get my immunisations

**6 months**

"Am I ready for first foods? Ask the child health nurse what foods I can eat. I also need my immunisations to protect me."

**12 month check**

"I love moving and pulling to stand. Let's see the child health nurse."

**18 months**

"I need my immunisations. I am getting curious and independent - stay one step ahead of me to make sure I am safe."

**4 years**

"I need my immunisations please, and I get to meet the school health nurse this year."

**2 year check**

"I can have big feelings, and you help me feel better. The child health nurse will see if I'm on track for kindy."

**School entry health assessment**

"The nurse visits me at school to check my hearing, vision and speech."
