WA Country Health Service

Broome Health Campus

Start your country adventure

- ✓ **Work to your full scope**
- ✓ **Be part of a close-knit and supportive team**
- ✓ **Have the adventure of a lifetime**

As part of a multidisciplinary team you will provide patient-centred, culturally safe care for women across the Kimberley.

Broome Health Campus offers two recently refurbished birthing suites with staff managing 300-320 low and moderate risk births each year.

The Midwifery Group Practice also provides continuity of care for all women birthing at the campus and a level two special care nursery is staffed by experienced nurses, midwives and paediatricians.

And when it's time to take a break, the Kimberley and its stunning natural beauty is yours to explore. Broome itself, known as Rubibi by the local Yawuru people, offers breathtaking beaches as well as gorges, rivers, fishing, crabbing, camping, camels, pearl tours, dinosaur footprints and national parks.

Our midwives service women in Broome and surrounding areas.

We provide:

- ✓ Antenatal-led midwifery care
- ✓ Specialist and GP obstetrician model of care
- ✓ Lactation support service (via telehealth)
- ✓ Hypnobirthing classes
- ✓ Water births
- ✓ Level two special care nursery
- ✓ Multidisciplinary team

We deliver 300-320 babies each year.

Excellence in country maternal and newborn care

WA Country Health Service strives to provide excellent maternal and newborn care to country women and their families, supporting them to remain closer to home and on country where possible.

We believe working with women and families during pregnancy and into early childhood provides the opportunity to improve the health of women and babies immediately, with flow-on benefits to the wider community for generations to come.

We offer supportive, collaborative maternity service models including our PROMPT education program, NeoResus program, K2 Infant Guardian CTG system, and coming soon, the Athena e-maternity record. We promote use of the full scope of practice with flexible work arrangements and opportunities for innovative midwifery staff to take on leadership roles and progress quickly up the career ladder.

We provide a range of maternal services in our hospitals including antenatal, birthing and postnatal care.

There are 18 maternity sites across the regions, with Midwifery Group Practice available at 10 of those sites. We operate a specialist model of care at our six major regional hospitals and GP Obstetrics at 11 maternity sites.

Midwifery and Obstetrics Emergency Telehealth Service

Our Midwifery and Obstetrics Emergency Telehealth Service (MOETS) is a 24/7 service that supports country clinicians caring for antenatal and intrapartum patients across our hospitals and health sites.

Support includes:

Consultant obstetrician advice via the regional on-call system

Maternal and neonatal transfers

Clinical policy advice and guidance

Care planning advice and decision-making

Escalation of care and clinical conflict of opinion

Second clinician reviews of Cardiotocographs (CTGs)

Second opinions

Perinatal loss and bereavement care advice

Virtual bedside support during obstetric emergencies

Support to non-birthing sites for unplanned maternity and gynaecological presentation

WA Country Health Service has a strong network of public hospitals, health services and nursing posts located across rural and remote Western Australia. Our core business is to provide quality, accessible health services to people living in large regional centres to small remote communities.

Hear from our staff why they love working in country WA
