Kalimera House

YOUR HOME AWAY FROM HOME IN BUNBURY

Welcome to Kalimera House.

That's its official name, but while you're undergoing treatment, we'd like you to think of it more as your home away from home.

With the aim of giving back to their community, Graeme and Cathy Loton purchased the property to provide low-cost or free* accommodation for the people of the South West who need to stay in Bunbury for cancer or other long-term treatments.

Located in a quiet neighbourhood, just 2.5 km from the South West Health Campus incorporating Genesis CancerCare (radiation oncology), St John of God Hospital and Bunbury Hospital, Kalimera House offers two fully self-contained units with room for family members, carers or friends. While children are most welcome, parents are asked to take into consideration the needs of the patient and those of other guests.

*The subsidy from the Patient Assisted Travel Scheme (PATS) will cover the cost of accommodation.
